

Toren van Oud TV-Services

Each apartment in Toren van Oud is equipped with two Smart TV's. Below is a short summary on how to operate the TV.

TV Channels and Sources

All TV channels are organized in a list in the TV Channels menu, this is also available via the Home Menu button. Click the Direct TV button to view TV channels directly. Press the left and right button to switch between sources such as HDMI inputs (HDMI 1 and 2 are on the left side of the TV)

Home Menu

In the home menu all available features are accessible as a sub-menu including building information, TV channels and access to personal preferences.

Settings

In the settings menu you will find settings regarding (sleep) timers and video and audio preferences as well as an option to clear your personal data from the TV stored during your stay.

Chromecast

Click the Chromecast button to get a QR-code to connect to the built-in Chromecast. In case you cannot connect there is a legacy mode for older devices. After connecting you can start casting your content from various applications. Note that some applications do not allow casting to the TV due to content restrictions set by third parties (e.g. Netflix).

Youtube

Press the Youtube button to start the Youtube application. This can be used whilst signed in to get the personal preferences or without signing in to get a more generic experience.

Toren van Oud info

All information of Toren van Oud can be displayed here provided by the landlord.
